

RAVES

This book is like love's tuning fork. It vibrates within you wherever you're stuck, wherever you're ready to get unstuck, and wherever chords of pure Spirit are already singing you joyously whole. Stop, listen, and for God's sake dance!

— Raphael Cushnir, Author of *Setting Your Heart on Fire*,
Unconditional Bliss, and *How Now: 100 Ways to Celebrate the Present Moment*

What If You Can Change the World? offers a compellingly beautiful invitation to intentional living that is utterly accessible to anyone willing to open these pages and begin the process. What a gift!

— Valerie Thea Vandermeer, Founding Director, EarthWalk

Like a well directed arrow, the right questions can help us seek essential truths in our longing to understand ourselves and our roles in the world. Linda Iribarren clearly understands this, and knows how to encourage a quest through provocative questions. This is a book that will gradually be highlighted, written in the margins and dog-eared because it will be used over and over.

— Gloria Karpinski, Author of *Barefoot on Holy Ground*

WOW, Linda Iribarren has forged a creative concept of true rhythm and dance...can be picked up at any page for inspiration...I really like the most copious reference listings, sources of "fuel" to nourish us and support our quests, as we ride this river of life!

— Chantal Toporow, Ph.D. Cultivator of Time & Energy, Aerospace Scientist

When words travel inside us and touch the heart... wisdom opens like a new flower to a warming sun. WHAT IF YOU CAN CHANGE THE WORLD? helps find that magic to inspire.

— Litany Burns, Author of *The Sixth Sense of Children* and *Develop Your Psychic Abilities*

Linda Iribarren's *What if You Can Change the World?* offers a brilliant and soul- uplifting new paradigm educational tool to nurture the rich inner awareness of each person. The deceptively simple *What if Process* is not just a nice "extra," but

should be used by every school in America to awaken or recharge the vast creativity and problem solving capacity available to all persons.

— Nancy Baumgarten, MLA, Author of *Profound Awareness: Nurturing Creative Genius*

What a lovely book... the kind to keep by your side and just open a page for inspiration, or to discover new direction for your life.

— Susan Gale, *A Place of Light*, and co-author of *Edgar Cayce on the Indigo Children*
